EXPERIMENTAL

Bold Additions to our lineup, sometimes because we “*caught a wild hair*” but mostly because we **love variety** and want to *push the boundaries* of what is possible.

Our Experimental beers are *extremely* limited quantities, only available in our **9th Street Taproom**.

Brewer's Notes

*We brewed **Pinch Hitter** as a way to begin our barrel aging program, while this beer isn't barrel aged, watch for its barrel aged version to show up in several months after spending some time in our beloved bourbon or scotch barrels.*
